- (iii) Referring to the evidence you have available, would this policy positively or negatively impact on the following Protected Characteristics groups? If so, then how? Detail how it would be possible to minimise negative impact (an action plan may be required to ensure minimal negative impact in practice/change an aspect of the policy). Refer to the following Duties where possible: **elimination of discrimination; advancing equality of opportunity; and fostering good relations.**

Protected Characteristic	Evidence	Impact (and how to minimise negative impact).
Disability	There has been a dramatic increase of students disclosing poor mental health. This can be seen in the Learning Support disclosures, the Student Services numbers, the number of referrals to the Wellbeing Service and the rise in Safeguarding incidents.	<p>Advancing Equality of Opportunity - The aim of the SMHA would be to support students to look after their own mental health and to direct them to services when they do need support. Regular events throughout the year will help engage with students and to remind them of what is available to them and that being aware of their mental health is important.</p> <p>Elimination of Discrimination – awareness raising of mental health and the support available will serve to normalise the need for students to look after their mental health and seek support when they need it. This will lead to a destigmatisation of talking about and taking action around mental health on campus.</p>
